

Erkan Özcanoğlu

As a third-year Computer Engineering student at Atılım University, I have goals in web development, but I am open to developing my skills in other areas as well. I enjoy working and producing, and I am comfortable with teamwork.

Work History

2022-08
- 2022-08

Intern

Promet Bilişim, Ankara

- Developed a website homepage using WordPress.
- Added an in-site filtering feature to a website, using Java to implement the search and filtering functionality.

Education

2019-10
- present

Projects

Selami Kiminsu

www.selamikiminsu.com

Developed a single page website for a real estate agent using React, Styled Components, and JavaScript. The website was implemented on Github, and deployed on Hostinger.

Emsa Gazi Kart

<https://emsagazikart.netlify.app/>

Developed a website for Emsa Gazi (European Medical Students' Association Gazi FMO) to promote their card. The website was developed using React, TailwindCSS, and Sanity CMS. The website was implemented on Github and deployed on Netlify.

Bahur Otomotiv

<https://bahurotomotiv.com/>

Developed a website for car repair service using React, TailwindCSS, Lottie, Three.js. The website was implemented on Github, and deployed on Hostinger.

DropShipping Website for Class Project

<https://dropshoop.netlify.app/>

Developed a functional e-commerce website as a group for both dropshipping and shopping. Gained a team-oriented personality while developing a time-limited project using React, TailwindCSS, and Supabase.
